'U' CROSS COUNTRY CARCER FOR FRIDAY

Event Is of Much Interest to
Students; Is Excellent
"Conditioner."

The first big event on the spring ath-
letic calendar at the University of Utah
will be held next Friday afternoon, when
about twenty runners will fight it out
over the long cross-country course for the
honor of wearing the "U" which is
granted to the winners of first and sec-
ond places in this event. The annual
cross-country run has come to be looked
upon as one of the most important of
spring activities at the U. of U. and ranks
with the track and field meets in point
of interest to the students.

Each year the cross country attracts
many students to the hillside as soon
as the weather opens up, and does prob-
ably more than any other early season
event to show the coach what new
strength he has among his candidates for
track honors. The meet attracts many
students who would otherwise probably
never appear in a track suit. It requires
condition above anything else. Often a
man who has had long experience as a
runner cannot win from a strong green
man over so long a route. Evidence of
this was seen last year when Cutler, the
Woolley, a green freshman, outstripped a
field of varsity runners and took first
place in the event. Woolley had never
been taught to run, but he was in great
condition. His victory inspired several
other men to try the stunt this year, and
for the last month there have been almost
fifty men working to condition them-
selves. The good weather gave them op-
portunity to get on the track and to do
their best.

The two men who look the best at
present for the cross country are Cutler
and Tansu. Last year Cutler went into
the race and put up a great fight. He
lost one of his shoes in the first 100
yards and went over the rest of the course
barefoot. The sticks and rocks cut his
feet, but he stayed with the game and
finished well toward the front.

Tansu, a long lean fellow with an
easy stride and takes the ridges and
ditches with more ease than anyone else
in the practice runs. He has been
held every afternoon during the good
weather.

Most of the men who are still out have
been over the entire course several times,
so that it is likely that there will be at
least half a dozen who will fight all the
way to the tape. The course begins at
the university symposium and leads to
the bottom of the hill at the base of the
big "U". At that point the captain
of the track team chooses the runners'
names off as they round him and start
back. The return course follows the
same route through the hills, and then
once around the quarter-mile
cinder track on Cummings field.

The men who are showing the most
promise, and are long lean fellows, are
Cutler, Tansu, Nelson, Fliegel, Love,
Nyman, Burrows, Verbyuk and Maw.
